The Hellenic Olympic Academy in collaboration with the Italian Olympic Academy have created the "International Fair Play Passport", which has just begun its symbolic journey from Ancient Olympia to all the parts of the world, sending a strong message of symbolism of the significance of the Olympic Values. The event took place at the premises of the International Olympic Academy, on **3rd June 2023**, through an exceptional choreography by Artemis Ignatiou, the choreographer of the Olympic Flame Lighting ceremonies.

The "Fair Play Passport" programme has been conceived and presented in the island of Procida, the Italian Capital of Culture for the year 2022, by the sociologist Prof. Dr. Gennaro Testa and has arrived in Olympia, as a messenger of values, such as health, well-being, sociability, inclusion, the ability to accept challenges; concepts that lead to personal and social development. The aim is to promote these values to every corner of the world, through the collaboration and participation of all the National Olympic Academies.
